

I am writting on behalf of K-love radio network. I can hear K-love locally on 91.1 in Denver but, as I travel across the state, I am able to hear this valuable radio station where ever I go through translators, but if LPFM were to take over these translator stations, I would loose access to K-love when traveling. K-love serves our community by broadcasting local events, happenings as well as important local info, as well as providing encouragement to those who listen. These services are extremely valuable to my community by drawing many people together over a large area (the state) in a way local radio could not. Please do not allow LPFM to take over my K-love across the state. Thank you.
